THIN KING

All house is located in Xizhu zhubei. It is designed as a healing warm space with three bedrooms and two halls. The owner wants it to be comfortable and warm. So we adopt the nice lighting in the public hall, with warm walls and other materials, mixed with light wood colored closet, not only comes out warm but also provide plenty of packing space. In the dining space, we used glass sliding doors to make the kitchen close as well as open space. The glass doors keep the city smoke from the hall but when it is open, the bar in the center really fascinates you with its modern fashionable style. The study is flexible for prospect use as guest room. The living area is also comfortable you can have nice sleeps there. The whole space uses a lot of genuine wood pan, matched with dotomacoccus warm and cultured stone, adding a natural flavor into the house and thus providing a breathing home for the owner.

本案位于台州行舟岛，2013年采用了现代家居设计，业主希望可以在舒适与温馨兼具的居住风格中，追求良好的公共空间设计。以大地色彩的墙面及木材质感，并采用木色系的柜体，不仅营造出温暖的氛围，也有助于提升整个空间的品质。通过多处的玻璃门墙，在餐厨空间进行了保留并改造，利用玻璃门墙将厨房与客厅空间可开可合的空间。在烹饪时把地台不仅可以防止油烟扩散，并可以保持整个空间的整洁与通透。通过玻璃门墙，不仅保持了空间的通透性，也起到了装饰作用。本案空间保留或新建空间，也可作为书房兼茶室使用。超质感文化石背景墙打造成了一个独特的居住空间。整体使用大量实木元素，并融入大量文化石材，为家中注入了自然气息，打造出屋主理想中的一个会呼吸的家。
